SUMMARY

Software engineer with 7+ years building enterprise applications in **C#, ASP.NET Core, SQL Server and TypeScript**, currently an Application Development & Deployment Analyst II at Lear Corporation. Led a global Chemical Management System on **Palantir Foundry** that delivered **$1.5M in savings in its first year**. Experienced across web, desktop and Android, from requirements gathering with stakeholders through deployment and support. DFSS and CIP certified.

WORK EXPERIENCE & PROJECTS

APPLICATION DEVELOPMENT & DEPLOYMENT ANALYST II

Lear Corporation LPEB
Oct 2026 – Present · Philippines (Hybrid)
Promoted from IT Specialist (Nov 2023 – Oct 2026)

- Led development of a global **Chemical Management System** on Palantir Foundry, automating Safety Data Sheet (SDS) approval workflows for EHS. Delivered **$1.5M in operational savings in year one**, gave every site worldwide access to chemical data, standardized annual inventory declarations, and added an AI agent for reporting.
- Designed and shipped system modules across **3 workstreams** with the C#/ASP.NET Core development team, streamlining the overall development cycle.
- Own the team's **Azure DevOps** setup, including repositories, pipelines and monitoring.
- Turn stakeholder needs into scoped use cases and prioritized feature backlogs for high-priority development cycles.
- Write and maintain technical documentation (SRS, FRD) and end-user guides, kept in sync with Agile releases.

IT INSTRUCTOR (PART-TIME)

University of Cebu Lapu-Lapu & Mandaue
Jul 2024 – Jul 2025

- Taught industry-aligned courses on Software Quality Assurance and Testing methodologies.
- Used mind mapping to teach structured test-case design and requirement traceability, improving student comprehension of complex QA workflows.
- Instructed students on automated testing with **Selenium**, emphasizing framework architecture and script maintenance.

SOFTWARE ENGINEER

N-PAX Cebu Corporation
2022 – 2023

- Contributed to the design and development of high-scale **ERP, Accounting and Inventory** modules, improving overall system performance and usability.
- Developed and deployed applications for desktop (**C# Windows Forms**) and **Android (Java)**.
- Owned full lifecycle support (troubleshooting, debugging and maintenance) for multiple client systems, resolving defects that significantly improved stability.
- Gathered business requirements with cross-functional teams and translated them into technical solutions.
- Defined, planned and ran User Acceptance Testing (UAT) to ensure product quality before release; maintained documentation for system processes and issue resolution.

WEB DEVELOPER

Mesh Networks Inc.
2019 – 2022

- Designed, developed and maintained full-stack applications using **ASP.NET Core, C# Windows Forms, Android (Java) and MS SQL Server**.
- Contributed to **HUMAN HRIS**, improving HR process efficiency by streamlining workflows and reducing manual data entry.
- Independently led end-to-end development (design, build, deployment and maintenance) of multiple systems:
  - **HUMAN Online Recruitment** – customizable recruitment platform that improved recruiter-applicant communication and sped up hiring.
  - **ORANGE GAMEFOWL** – web-based system with optimized performance and real-time data handling.
  - **NIMS** (National Integrated Microchip System) – Android inventory system for veterinarians, improving tracking accuracy.
  - **TRICOINS** – Android app for distributed data collection, improving reporting efficiency across multiple agents.
- Led on-site client meetings to gather requirements and present solutions; produced user manuals and technical documentation that improved adoption and reduced support requests.

EDUCATION

Bachelor of Science in Information Technology 2015 – 2019
University of Cebu in Lapu-Lapu and Mandaue

TECHNICAL SKILLS

Languages: C#, TypeScript, SQL, Java (Android)

Frameworks: ASP.NET Core, ASP.NET MVC, .NET Framework, Windows Forms

Frontend: SCSS, Bootstrap

Platforms & Tools: Palantir Foundry, Azure DevOps, Git, Visual Studio 2022, Android Studio, Selenium

Databases: Microsoft SQL Server

Practices: Agile/Scrum, requirements analysis (SRS, FRD), UAT, debugging and troubleshooting

---

CERTIFICATIONS & AWARDS

- Design for Six Sigma (DFSS) Certification, 2025
- CIP Certification, 2025
- Generative AI Workshop Instructor, 2024
- CIP Leader, Lear Corporation, 2023
- Team Innovation Award, 2021
- UCLM Programmer of the Year, 2019
- Champion, Hackathon Competition, 2019
- Best in Information Technology Project, 2019
- Champion, UCLM Programming Competition, 2017
- Champion, TESDA Provincial Web Design Competition, 2016
